

ROCKWALL 20

Fast and light – ROCKWALL is made for this style. In addition to lightness, durability is something we kept in mind when developing this climbing backpack. The result of our efforts is a great partner to appreciate on multipitch climbs, one-day mountain ascents or on via ferrata.

DESCRIPTION

Quick and easy top access to the main compartment can be opened with one hand.

Made of durable and light-weight Robic ripstop nylon fabric with double PU coating on the inside and outside.

Bottom is made of very durable nylon fabric.

Durable woven loop for easy handling.

Ergonomically shaped shoulder straps have absorbent, sweat-wicking material on the inside.

Side daisy chains can be used for attaching carabiners, quickdraws or to create a strapping system (compression straps not included).

Hip belt can be completely removed.

KEY FEATURES

- conical shape of the pack ensures that it doesn't bother you when climbing

TECHNICAL DATA

MAINTENANCE

Lifetime of this product depends on the frequency and the environment (salt, sand, moisture, chemicals, etc.) in which is used. However mechanical damage can occur during the first use, which can limit the lifetime of this products only to its first use.

OTHER VIEWS

Side YKK water resistant zipper to the main compartment gives you quick access to your stuff.

Front daisy chains are used for attaching helmets, crampons or other equipment; the top loops in combination with the plastic pins on the elastic cords serve for attaching ice axes or trekking poles.

Smooth surface of the back padding allows you to easily clear dirt and snow from the back panel.

Sternum strap is adjustable in length and height and also removable.

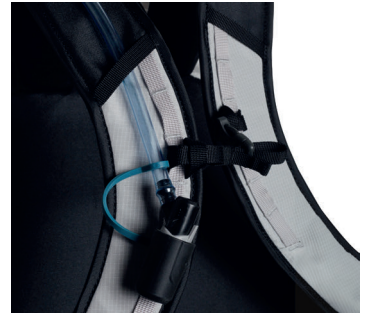

Quickly accessible external zip pocket, so you will always have your topo, phone or snack at hand.

Interior zippered pocket stores your wallet or car key.

For your water bladder, there is a large internal pocket in the main compartment and the shoulder straps offer textile loops for fixing the hose.
