

**GYM 9.8** 

Single rope specially designed for the demanding conditions of rentals of climbing walls or rope centres and parks.

## **DESCRIPTION**

For these purposes, it is developed with an emphasis on higher durability and safety.

Thinner rope diameter offers comfortable handling with any belay device on the market.

Braided core and compact sheath increase inter-fiber friction which prevents sheath slippage and gives the result of increased resistance to abrasion mainly when top-roping.

pack: 30–80; 100 m spool: 200 m

LENGTH

# **STANDARDS**

**(€** 1019 EN 892 UIAA

# **FEATURES**

#### **MATERIALS**

● **100** % PAD

#### **TECHNICAL DATA**

rope diameter	9.8 mm
weight	63 g/m
sheath slippage	0 %
static elongation	8 %
dynamic elongation	33 %
number of UIAA falls min	8
impact force	9.1 kN

L3070YX Version: 05/2024
