

TENDRIL

Durable lanyard made of 23 mm webbing with stitched eyes and wear indicator for positioning not only in rope parks.

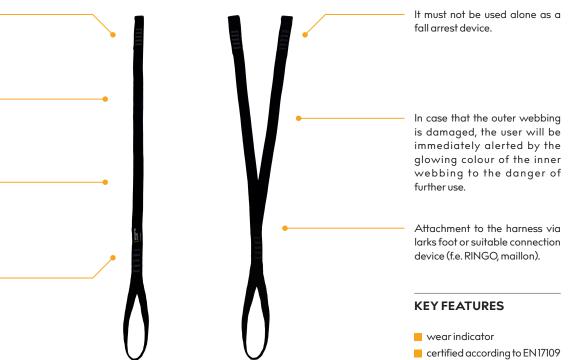

DESCRIPTION

Can be used as an anchoring or connecting device for work at height.

Webbing is constructed of two parts with a strength core inserted into a hollow protective cover.

For use in accordance with EN17109, a connection device according to EN 17109 must also be used.

For use in accordance with EN354, the maximum permissible length in the fall arrest system is 2 m.

MAINTENANCE

Lifetime of this product depends on the frequency and the environment (salt, sand, moisture, chemicals, etc.) in which is used. Without taking wear or mechanical damage into account and in compliance with the conditions specified in the instructions for use this product may be used 15 years from the date of production and 10 years from the date of the first use.

However mechanical damage can occur during the first use, which can limit the lifetime of this products only to its first use.
